What one answer taught it

Every answer becomes one example for your own AI: what was seen, what was recommended, the words, and what the customer did. It is yours to keep.

Your turn

How many customer questions do you expect a month?

It sets how soon your own AI has enough answers to learn from.

Later: your AI drafts, your expert decides

SARAH'S NEXT QUESTION

"Is it OK to start before the appointment?"

DRAFT, AFTER YOUR EXPERT ANSWERED

Yes, start today with the scalp scrubber. Book in the next two weeks so we can check it properly.

Your expert sees the draft only after recording their own answer, so the AI learns from them, not the other way round.

YOUR RULES, TESTED ON EVERY DRAFT

Your rules go here (on the right).

WHEN IT MAY ANSWER ALONE

Only after the tests pass, only for the questions you allow, and anything outside your rules always goes to a person.

‹ Back 17 of 19 Next ›

YOUR BUSINESS

The rules it must keep

Your rules are tested on every draft. Your AI drafts in the background first; your expert stays in charge until the tests pass.

Your turn

What must an answer never say, and when must your expert send someone elsewhere?

These become fixed rules, and a test your AI must pass every time.

For example: never promise a result; send anyone with pain to a doctor.

One tap. You can change it later.

Your answers stay on this screen; download them at the end.
