The App Model

WillpowerLab, one phone for the whole app · 9 November 2026

Every journey walked by its ringed step: each page is the phone at one step, the orange ring on what the person taps next (named under the caption). RASP in full; Invita only where it differs (its customers' ask link, and the walk's Clearer version). Then the chat with a person on both phones, the matching screens, the coach's side (Marta's queue by its rings, then the founder's rows), the principles, and more screens: the stories that had only their own prototype. Then the way in as N572 and N573 decide it, Will's voice, and the AI models: the pinned hand-offs' own screens (the launchpad's App Model edition, its test drive, your chat on any website), shown in the phone as they are pinned.

The decisions log wins over the code. A red chip on the phone, "Code differs", marks a spot where the code still says what a decision replaced (N559: MATCH-05, MATCH-09; N564: PLAN-01, PLAN-07, PLAN-09, PLAN-10, PLAN-12; N511: COACH-12); a dashed note marks what is decided but not built; dark toasts and notes are the model's, not the app's.

SECTION	BUSINESS	PAGES	FROM PAGE
1. Signing up, in the browser	RASP	49	2
2. The iPhone app	RASP	45	51
3. By someone's link	RASP	60	96

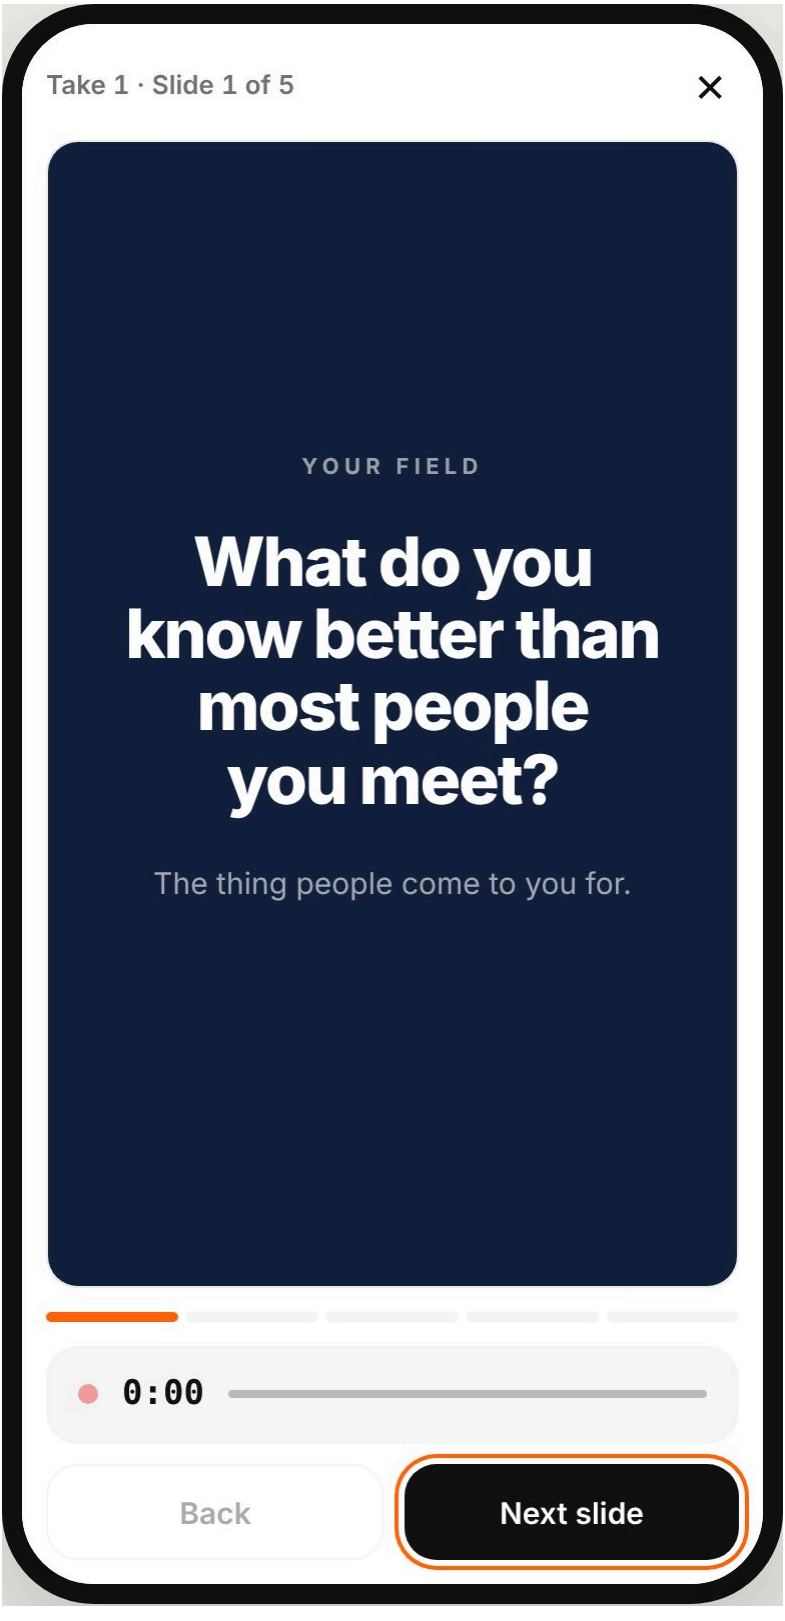
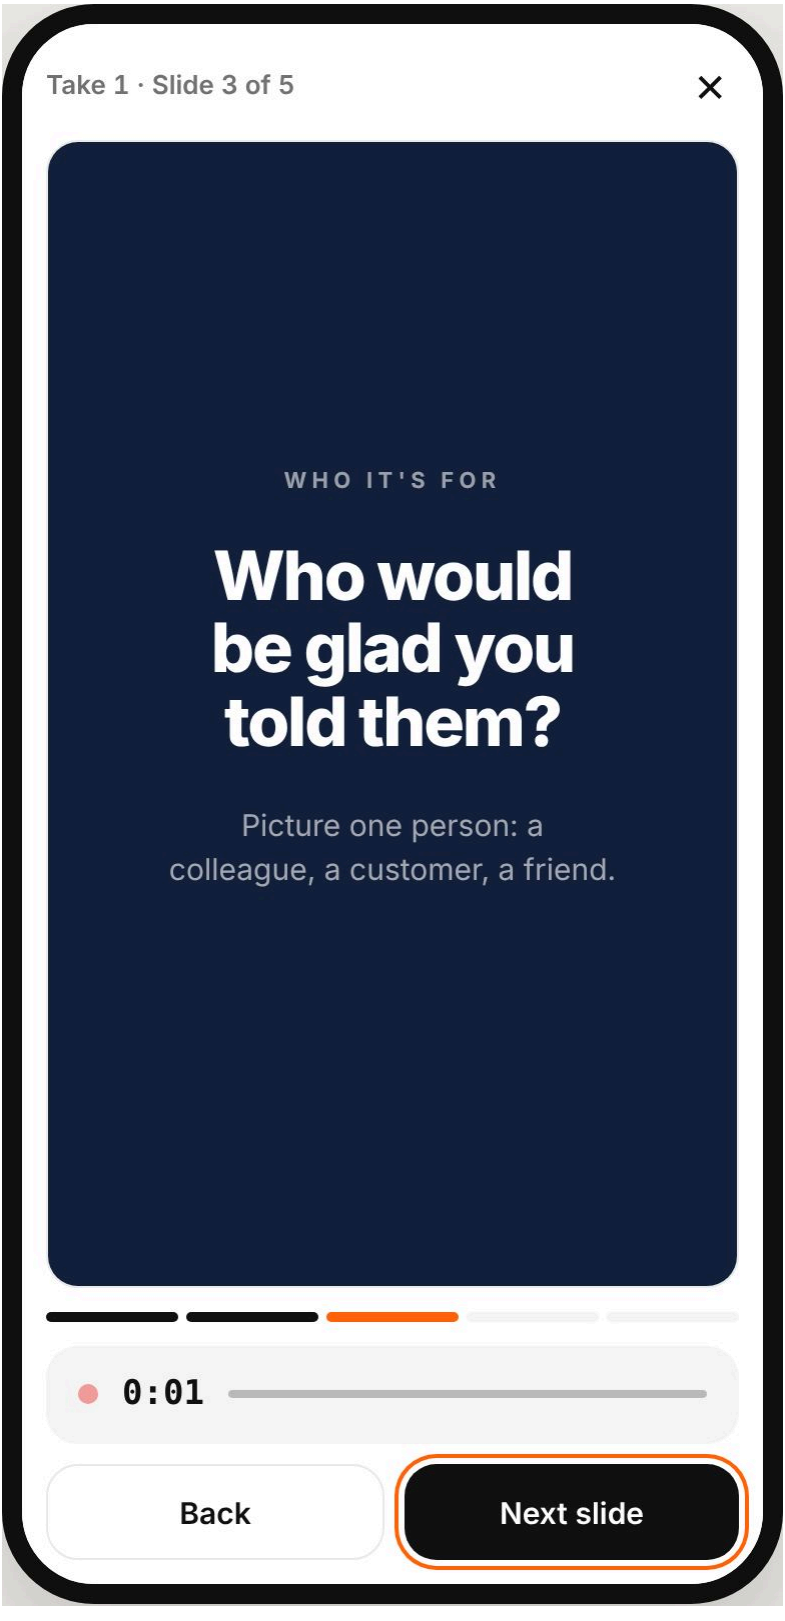
Today 09:01
Hi Anna, and welcome. We'd like to learn what you know and what you could teach others.
Your first Take is a short introduction: five questions, one slide each. Answer out loud, as you'd explain it to a friend. At the end, you'll get a few words on how you came across.
Wozniak built the computer; Jobs made the world want it. You're probably a Wozniak. We want you to be heard the way Jobs was.
Record somewhere quiet, where you'd usually take a call and no one will interrupt you. Passing knowledge from one mind to another is, after all, what civilization is made of.
Start your first recording

1. Signing up, in the browser · RASP · step 12 of 49 · Anna's phone

next: **Next slide**



Take 1 · Slide 2 of 5
WORTH SHARING
What could you teach someone in five minutes that would save them a year?
Something you learned the hard way.
0:01
Back
Next slide



Take 1 · Slide 3 of 5
WHO IT'S FOR
Who would be glad you told them?
Picture one person: a colleague, a customer, a friend.
0:01
Back
Next slide

Take 1 · Slide 4 of 5
A MOMENT
When did it make a difference? Take us to that day.
Where you were, what happened, what changed.
0:02

Your first Take

Parliament, and how a bill becomes law. I can tell you where a bill will stall before it does.

Read the last page of a bill first. That's where the dates and the money are.

A young reporter in their first week in parliament.

The night a vote moved at the last minute. I had the story because I'd read the last page.

Read the last page of a bill first.

Opening
Hi Anna.
Last time: lean on “the last page”. You did.
Read **the last page** of a bill first.
0:04
I can tell you where a bill will stall before it does.
0:04
To us, this one sounded really sure.
Why it worked: your voice was calm and smooth. It sounded like you were in charge!

Record Take 2

Your first Take

How to open a talk and sound sure, even when you aren't. People come to me the week before they speak.

Stand still for your first sentence. I learned it after years of pacing while I talked.

A coach who runs workshops and feels the room drift away.

A client froze on a stage in Warsaw. One breath, one step back, and she went on.

Your first sentence decides how the room hears the rest.

DECIDED, NOT BUILT (CUSTOMER-REQUESTS.MD)

A Take 2 after sending changes nothing Sarah has: Will asks again, and only a second Send replaces it (D6). The photo is kept in a private bucket, read by signed link only, and deleted 30 days after the answer; the pair keeps the text, not the photo (G1). Her model learns blind: no AI shown in the first version; drafts start blind and show only after the golden set passes and after she answered (H5).

PROTOTYPE

The model's switch: the same moment on the other phone.

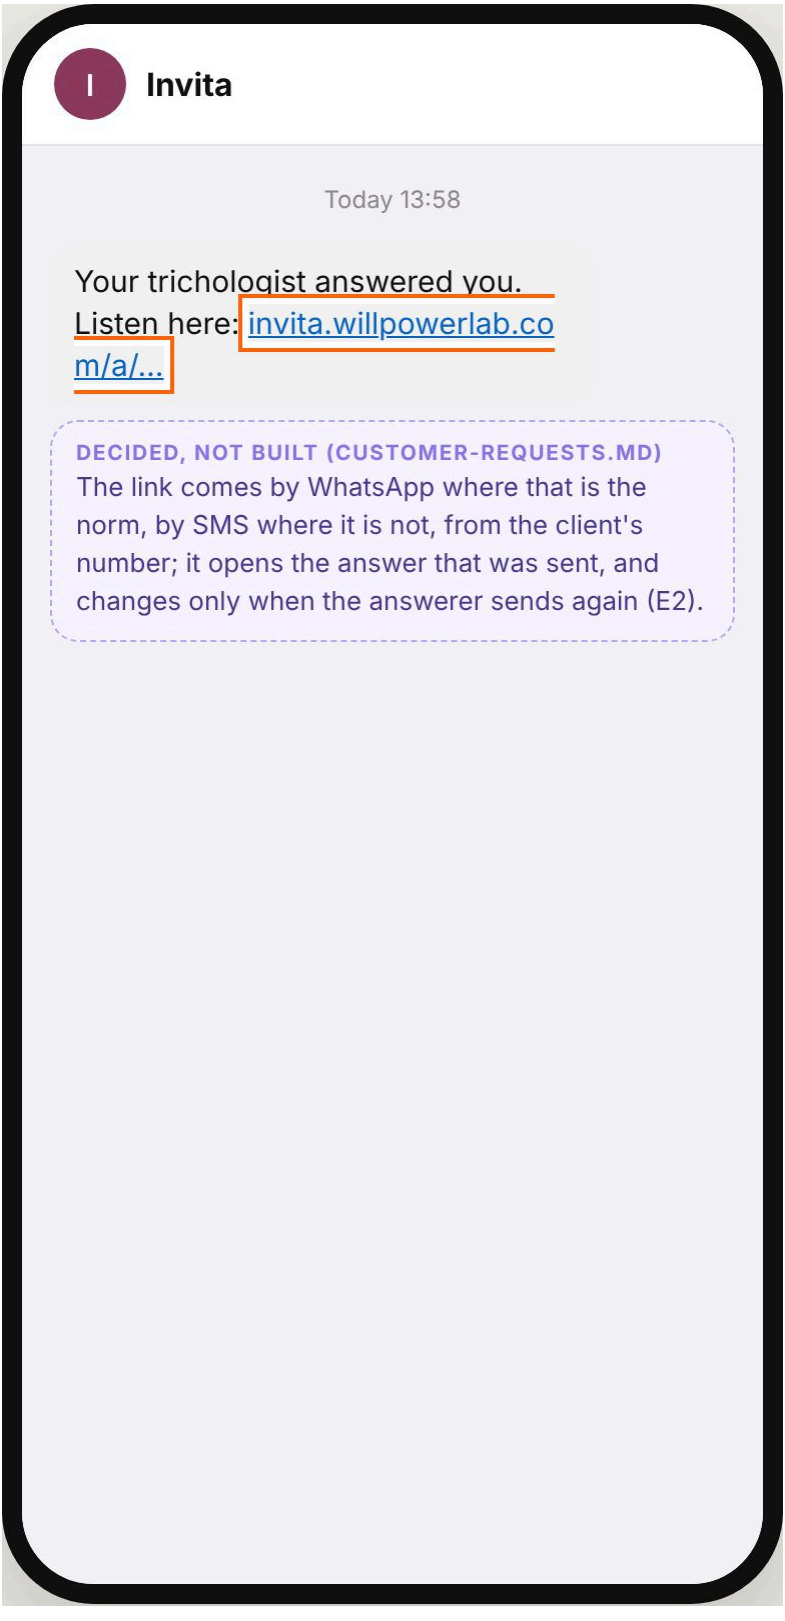
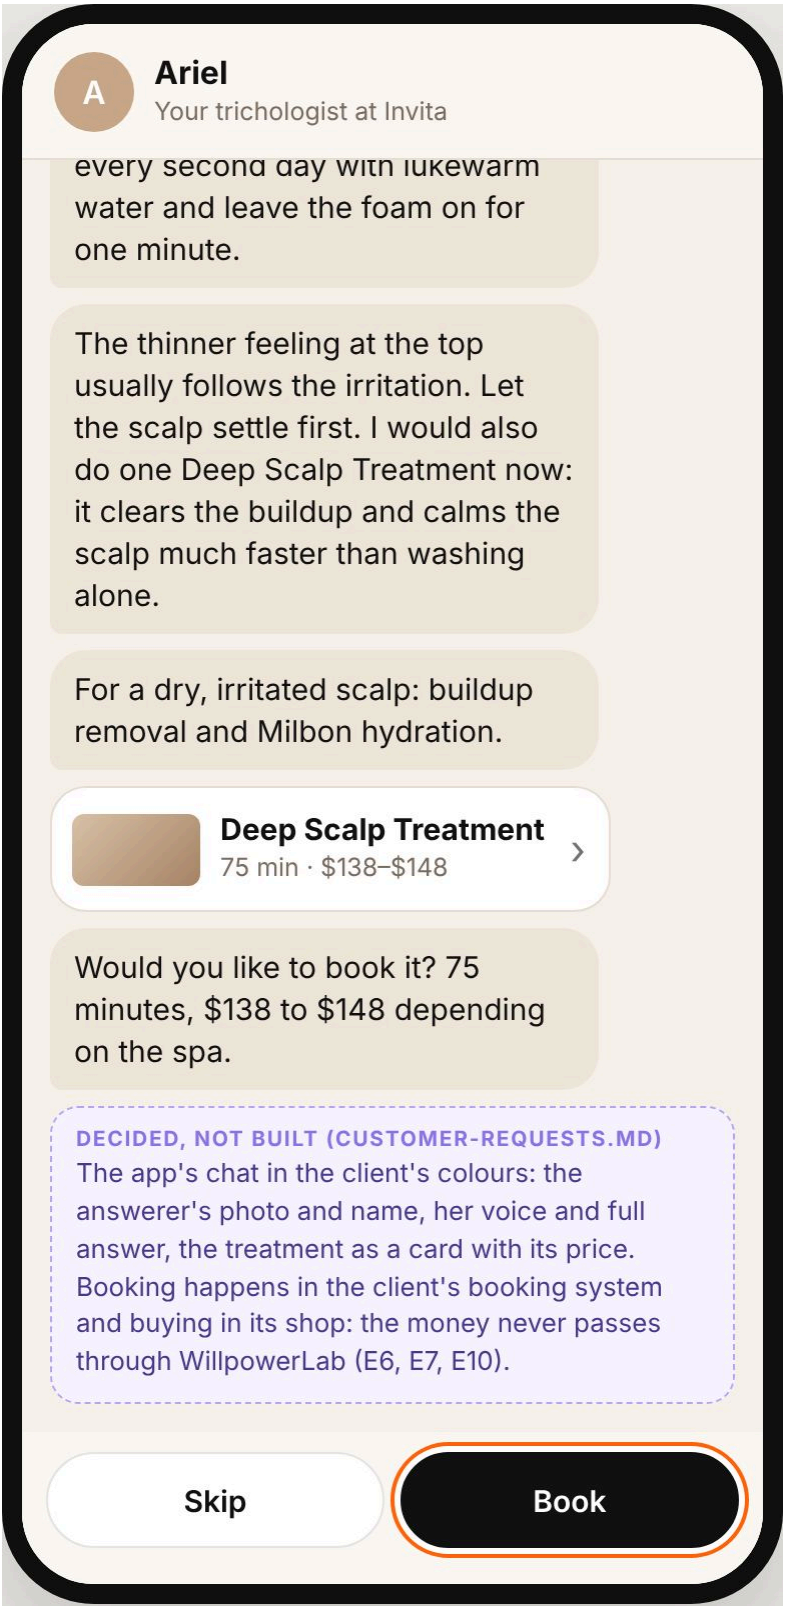
next: **invita.willpowerlab.com/a/...**





A
Ariel
Your trichologist at Invita
every second day with lukewarm water and leave the foam on for one minute.
The thinner feeling at the top usually follows the irritation. Let the scalp settle first. I would also do one Deep Scalp Treatment now: it clears the buildup and calms the scalp much faster than washing alone.
For a dry, irritated scalp: buildup removal and Milbon hydration.
Deep Scalp Treatment
75 min · $138–$148
Would you like to book it? 75 minutes, $138 to $148 depending on the spa.
DECIDED, NOT BUILT (CUSTOMER-REQUESTS.MD)
The app's chat in the client's colours: the answerer's photo and name, her voice and full answer, the treatment as a card with its price. Booking happens in the client's booking system and buying in its shop: the money never passes through WillpowerLab (E6, E7, E10).

I have nothing of yours to draft from yet. Let's do this another time.
THE REST OF THE SITTING (M5 TO M10)
With their words, Will's draft quotes them ("Will's draft, from your words:"), then "Is this what you want in the long run, or something you want now?", "Is it ambitious enough?", "What will you give up for it?", "By when?", worked back to this quarter with real dates, and the ladder. Will never invents a goal.

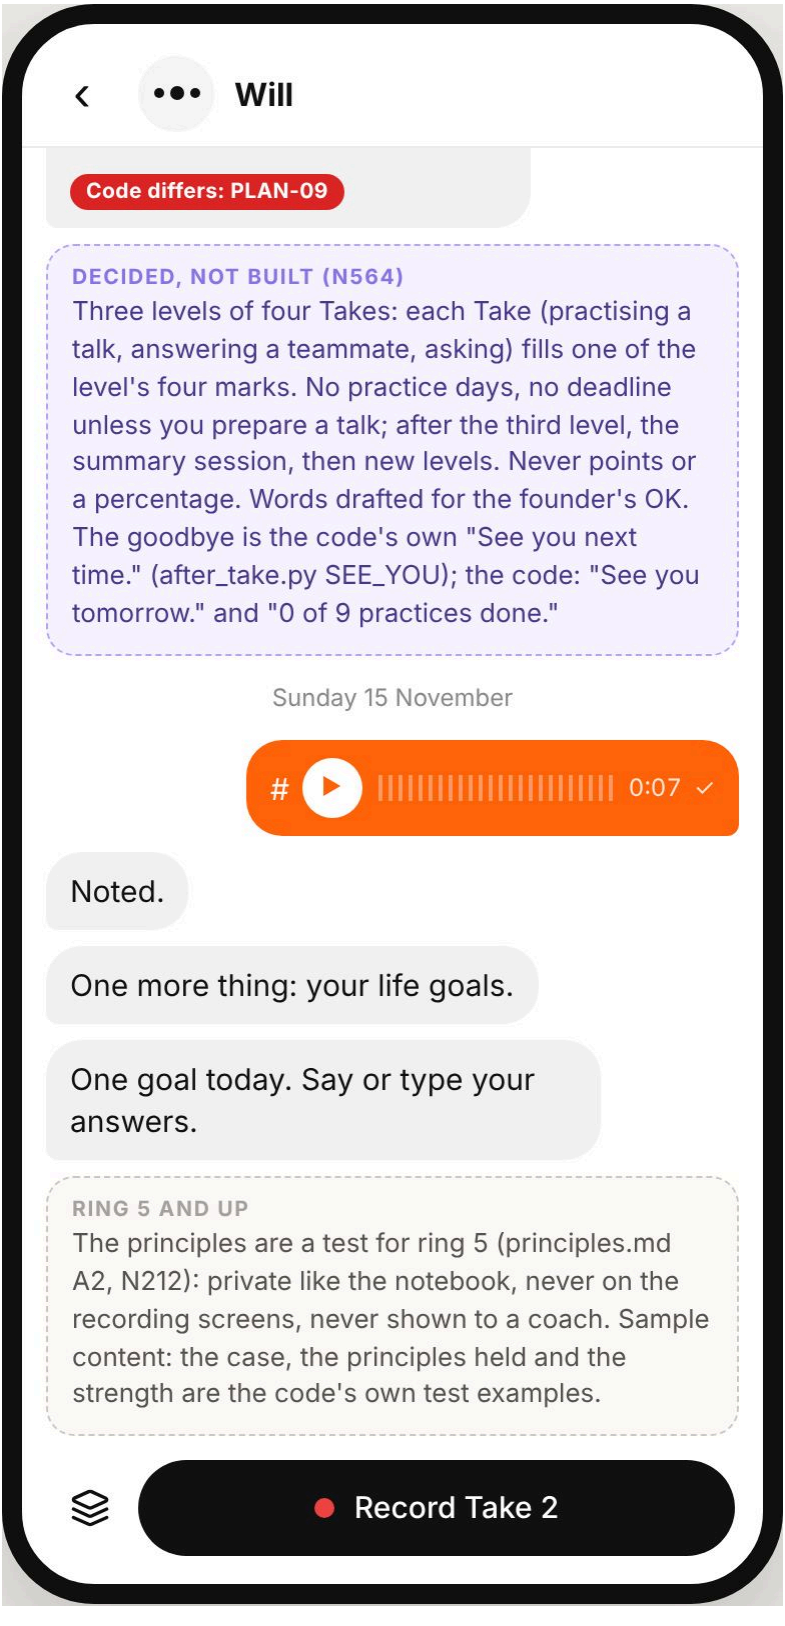
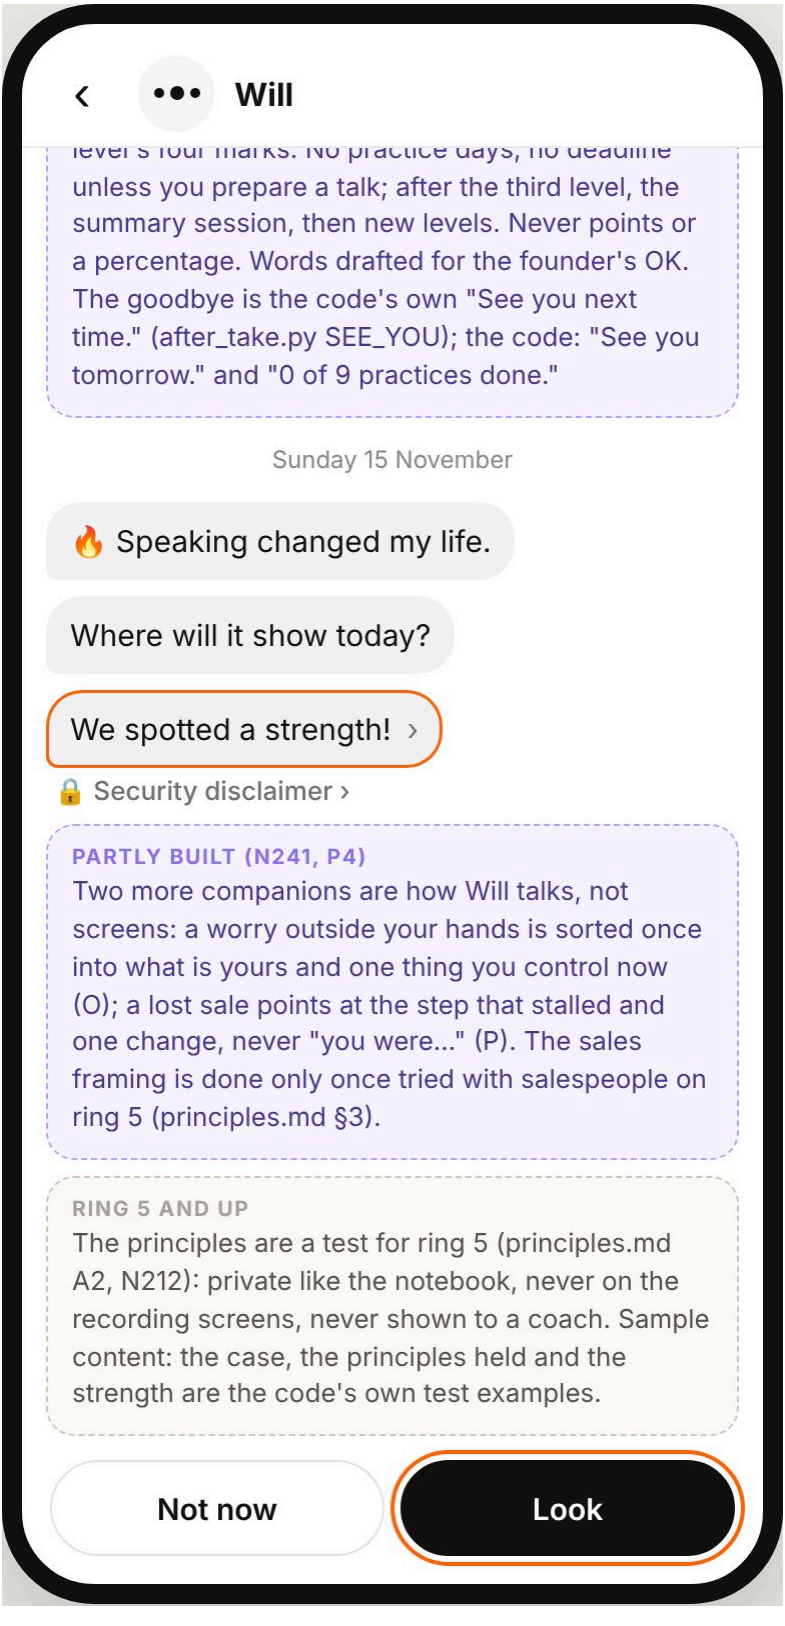
the end of this journey





Will
level's four marks. No practice days, no deadline unless you prepare a talk; after the third level, the summary session, then new levels. Never points or a percentage. Words drafted for the founder's OK. The goodbye is the code's own "See you next time." (after_take.py SEE_YOU); the code: "See you tomorrow." and "0 of 9 practices done."
Sunday 15 November
🔥 Speaking changed my life.
Where will it show today?
We spotted a strength! ›
🔒 Security disclaimer ›
PARTLY BUILT (N241, P4)
Two more companions are how Will talks, not screens: a worry outside your hands is sorted once into what is yours and one thing you control now (O); a lost sale points at the step that stalled and one change, never "you were..." (P). The sales framing is done only once tried with salespeople on ring 5 (principles.md §3).
RING 5 AND UP
The principles are a test for ring 5 (principles.md A2, N212): private like the notebook, never on the recording screens, never shown to a coach. Sample content: the case, the principles held and the strength are the code's own test examples.
Not now

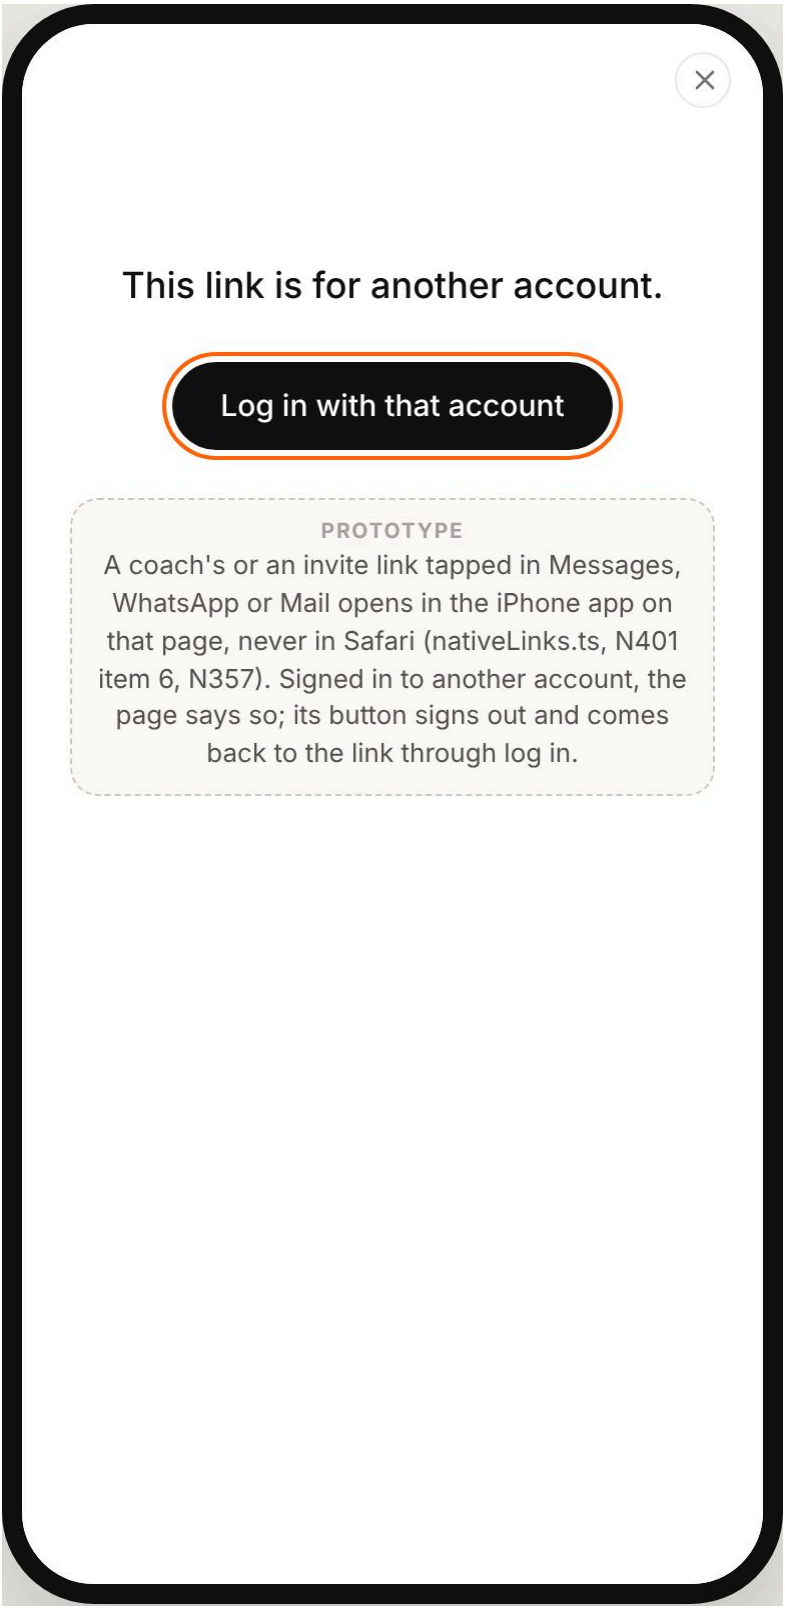
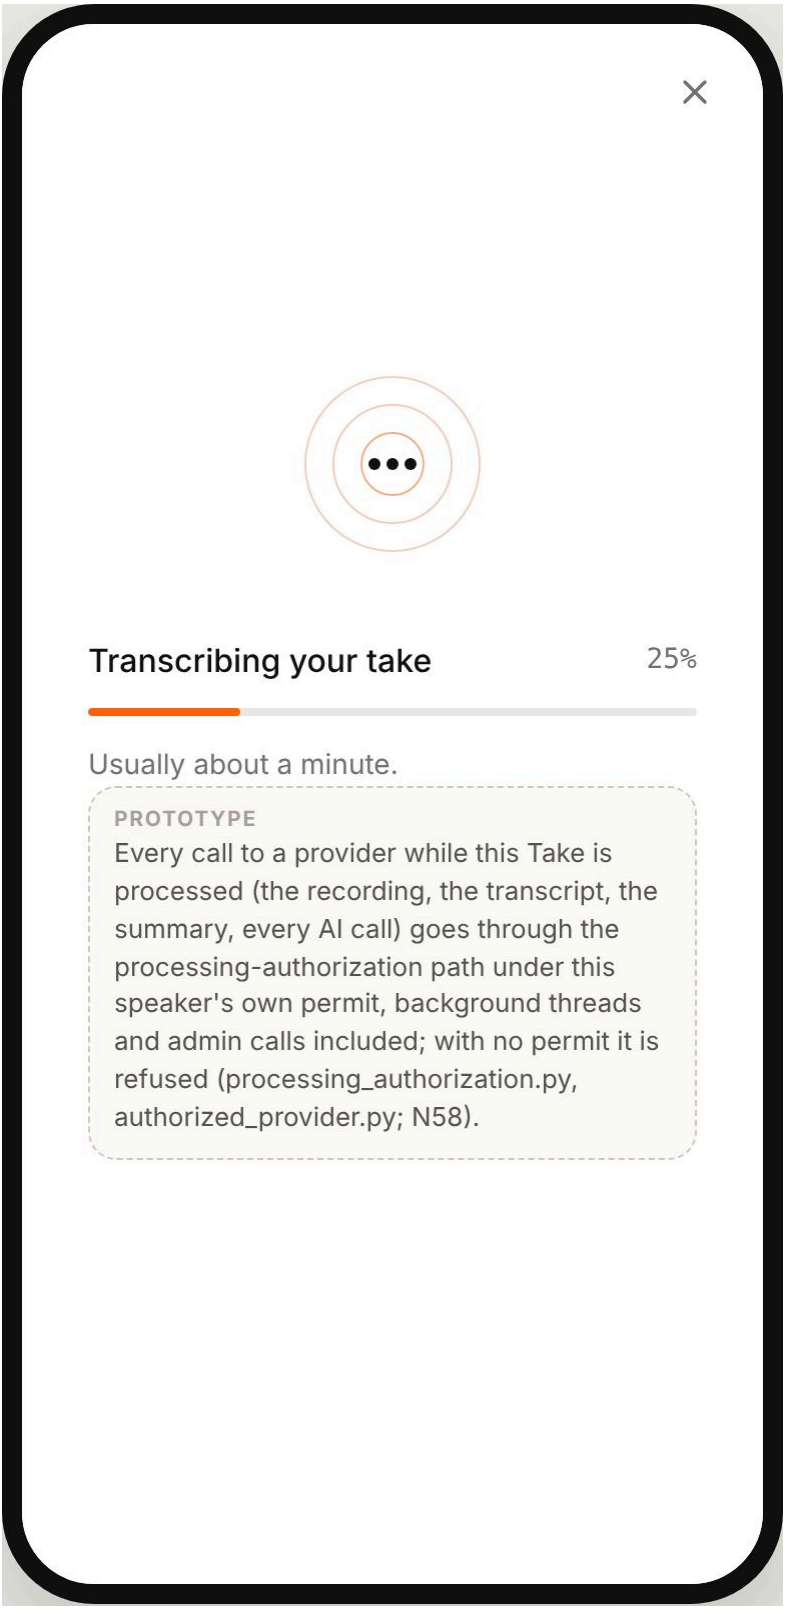
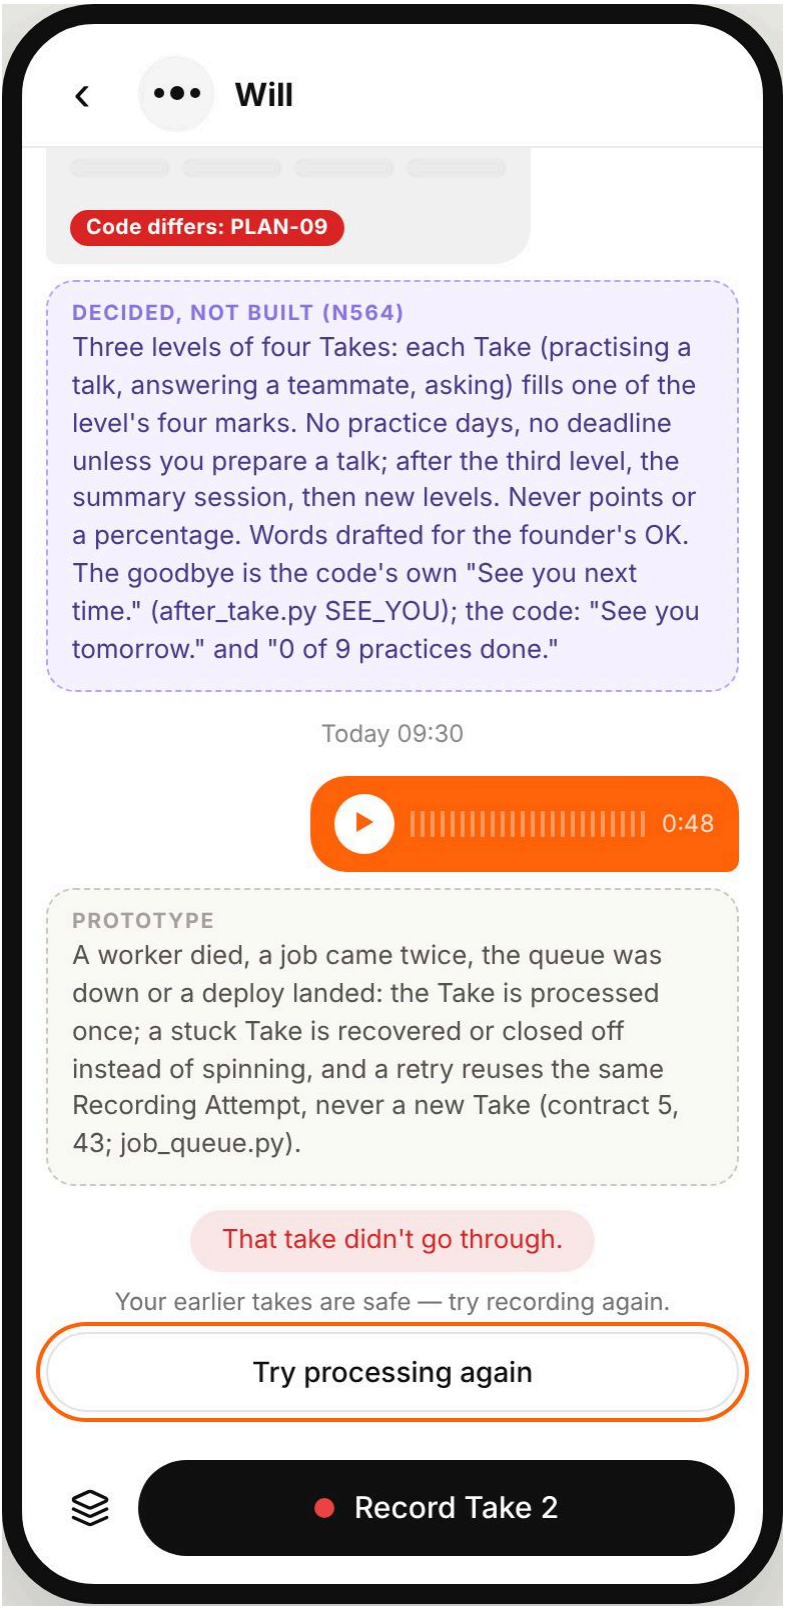
1. Paste it
in an email or a message you send anyway
2. They open it
and join with their account
3. You chat
Only the two of you are in it
Cancel
PROTOTYPE
Your own link keeps working until you renew it. After 10 people join through one link in a day, the next go to the waitlist (N471 item 7; chat_links.py, membership.py).



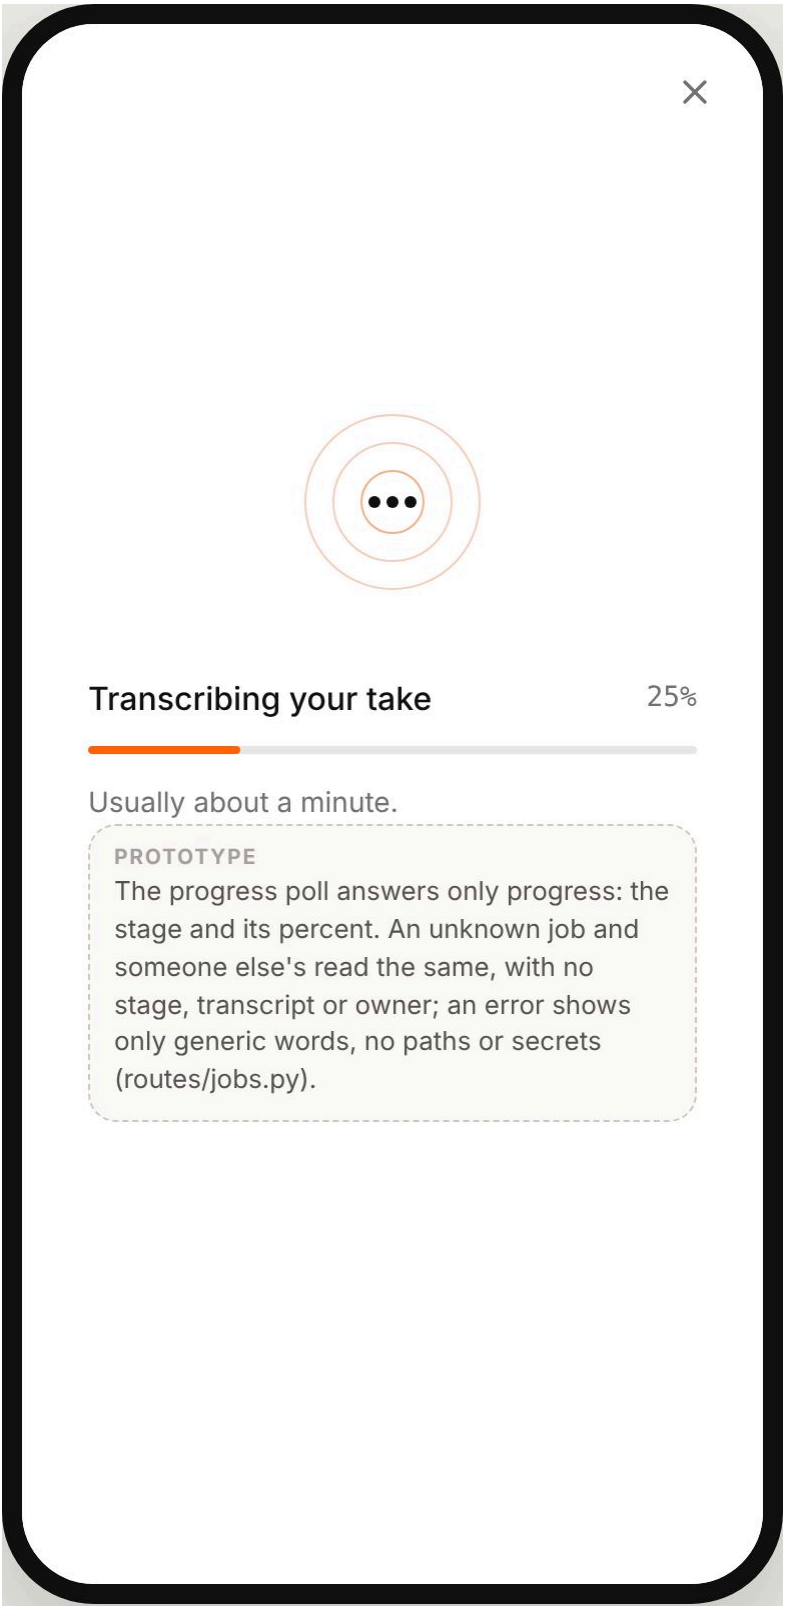
This link is for another account.
Log in with that account
PROTOTYPE
A coach's or an invite link tapped in Messages, WhatsApp or Mail opens in the iPhone app on that page, never in Safari (nativeLinks.ts, N401 item 6, N357). Signed in to another account, the page says so; its button signs out and comes back to the link through log in.



Transcribing your take
25%
Usually about a minute.
PROTOTYPE
Every call to a provider while this Take is processed (the recording, the transcript, the summary, every AI call) goes through the processing-authorization path under this speaker's own permit, background threads and admin calls included; with no permit it is refused (processing_authorization.py, authorized_provider.py; N58).



Will
Code differs: PLAN-09
DECIDED, NOT BUILT (N564)
Three levels of four Takes: each Take (practising a talk, answering a teammate, asking) fills one of the level's four marks. No practice days, no deadline unless you prepare a talk; after the third level, the summary session, then new levels. Never points or a percentage. Words drafted for the founder's OK. The goodbye is the code's own "See you next time." (after_take.py SEE_YOU); the code: "See you tomorrow." and "0 of 9 practices done."
Today 09:30
0:48
PROTOTYPE
A worker died, a job came twice, the queue was down or a deploy landed: the Take is processed once; a stuck Take is recovered or closed off instead of spinning, and a retry reuses the same Recording Attempt, never a new Take (contract 5, 43; job_queue.py).
That take didn't go through.
Your earlier takes are safe — try recording again.
Try processing again
Record Take 2



Transcribing your take
25%
Usually about a minute.
PROTOTYPE
The progress poll answers only progress: the stage and its percent. An unknown job and someone else's read the same, with no stage, transcript or owner; an error shows only generic words, no paths or secrets (routes/jobs.py).

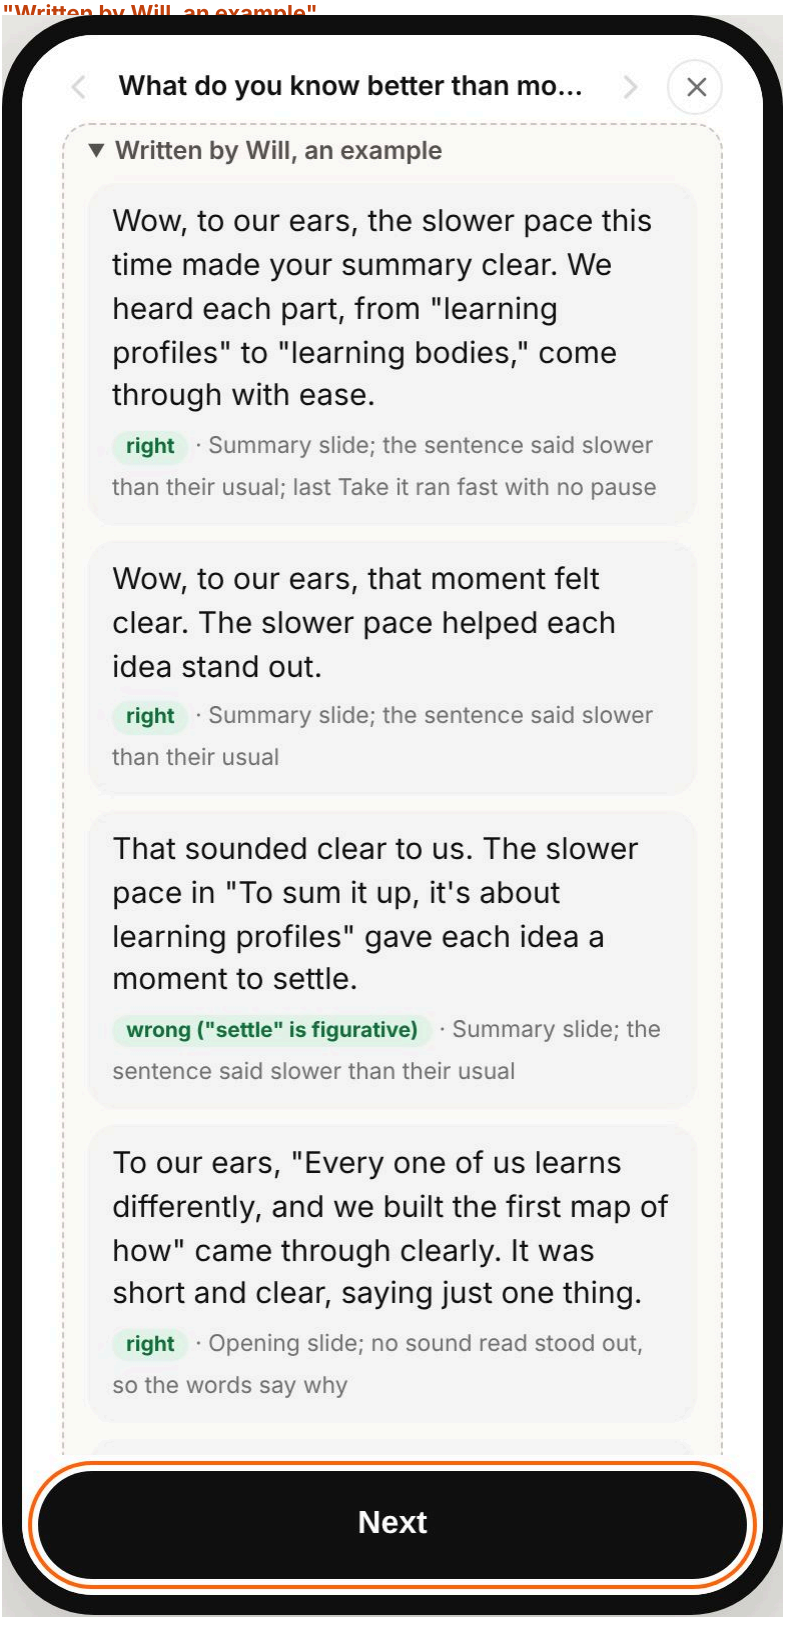
Kasia
Record Take 2

next: **Will's voice: the signed line, and the founder's real replies under "Written by Will, an example"**



Where the models meet each phone

Kasia, a speaker: the "AI models" row under her chats (N528 item 1, d-1), the same as for everyone; her Takes reach a voice model only if her training yes, "Help improve WillpowerLab", is on (N518 item 5, N563 item 4), set in Settings. She never sees a model's page or numbers (N526 item 3, Never 1). Nothing of the models in her onboarding.

Tomek, the person she asks: the "AI models" row; as RASP's inviter he sees the invite screen (s-16) and, if he teaches, the one queue under the coach's row (q-2), with RASP's own examples counting only for RASP's model (N563 item 3, q-5). Answering Kasia's Take stays his chat with her (N470); it teaches nothing yet (N518 item 2, not built).

Marta, a coach: the coach's row (N521) is the one queue for every model she teaches (N563 item 1, q-2); each example opens the screen its recipe card gives: rate (q-3), pick (q-5) or answer in her words (q-6); the "AI models" row to find, join and start models (d-2, s-1); her models on her profile (p-2).

A business using a model: its model card (b-1), a free test key (b-4), the code (b-5) and its usage (b-6).

Job interview coach
Job interview coach
100%
Job interview coach passed its final exam. Nine interview coaches taught it.
It helps people prepare for job interviews: it hears the question they fear, and answers the way an experienced interview coach would.
Good at
Common interview questions, in English
Not so good at
Technical interviews; other languages
Not for
Legal or medical advice
On its final exam
Coaches who didn't know which answer was whose rated its answers as good as a coach's about 8 times
Use it in your business
Try it

Job interview coach
ready to use
Tell me the question you dread, and how you would answer it now.
They always ask for my biggest weakness. I say I work too hard.
Interviewers hear that answer every day, and it sounds like a dodge. Name a real weakness, say what you did about it, and end on what changed. Keep it under thirty seconds.
What if they ask why I left my last job after four months?
I'm not sure about this one, so I won't guess. One of the coaches who taught me will answer it here within a day.
Not sure · a coach will answer

P
Pitch Coach
trying it · not for sale yet
Tell me the line you want to land, and how you said it.
My last line: “And that is why we are raising two million to scale.” I said it in one breath.
That line carries your ask, so give it room. Pause before “two million”, then slow down on the last four words. Try it twice: once fast, once slow, and keep the slow one.
